Relevant Experience

Bob has a vast experience in the health & safety field predominantly within manufacturing where he was the H&S Manager for Rolls-Royce Power Generation Division in the Manufacturing of large scale diesel engines. He moved on to Cryovac/Sealed Air where he had a European role covering the manufacturing of food packaging. He has implemented a number of H&S management systems within client businesses since entering consultancy. He has experience at the highest level in the role of director. Bob has successfully delivered a range of health and safety services to a wide range of client businesses from various sectors including:

- Property management
- Food processing
- National Retail Operations
- Materials Processing
- Engineering & Manufacturing
- Construction and Fit-out

Bob's long service within the military environment has enabled him to work well on his own or as part of a team. He has a very practical mind that clients have come to rely on for sensible solutions to their respective problems. He is also a qualified radiation safety officer.
